

# Joyrider Powerchair

The E-Goes Joyrider Folding is an ultra lightweight, compact, foldable and transportable powerchair. Before folding, the Joyrider's motor unit can be removed, keeping the heaviest part just 8.6kg! This makes it much easier to lift into and out of the car boot.

The Joyrider offers superb manoeuvrability in tight spaces, with the ability to turn on its own axis. Airline approved batteries make it an ideal travel companion and charging is made easy with on- and off-board options, with a total charging time of 5 hours.

**Solid tyres** provide total protection against punctures.

**Anti-tippers** keep you safe on hills and inclines.

**Swinging footrest** allows for easy transfers on and off your powerchair.
