

Freedom A06L

Powerchair

The Freedom A06L is a travel powerchair for users who need portable mobility. Highly manoeuvrable, the Freedom Chair A06L is compact enough to be used indoors too and once folded, fits into most car boots and takes up very little space for storing indoors. It's also flight ready, with lithium batteries approved for airline travel.

With two powerful 250W continuous/300W peak brushless motors and 12.5in rear wheels, the A06L offers an excellent combination of indoor and outdoor capabilities.

Flip-up armrests - transfer easily and draw up close to a table.

USB & LED Light - Top up your smart phone or light up the path ahead.

Under-seat storage provides a handy and secure place for your belongings.
