Recommended seating combinations

for the active wheelchair user

Yes, you can.®

## What is onesolution?

---

It's about changing a mindset and ensuring that when we think about a wheelchair, we also think about the seating, the back support and other accessories.

So, it's time to bring together some of the very best of our brands in wheelchairs and seating systems to create winning combinations that promise to take an active wheelchair user into an unlimited world.

We offer a wide portfolio of mobility and seating options. In this brochure we are featuring the most premium and advanced active wheelchair combinations as recommended by leading therapists and experts. Now you can browse, order and receive delivery of these combinations as one complete solution.

## Küschall® wheelchairs for the active user

Our chairs are customisable and designed to meet the users' individual needs. Built by experts, designed with passion and produced with cutting-edge technology.

## Recommended back supports

Rigid back supports, are a key component to preventing postural deformities and can offer active users far more functionality in their wheelchair than the standard canvas.

### matrx<sup>MX2</sup>

**Most attractive** carbon fibre back support for ultimate freedom and performance whilst not weighing the chair down.

### matrx<sup>E2</sup>

**Award-winning**, offering maximum postural support, pressure relief and exceptional microclimate control.

## Recommended cushions

We offer a wide range of wheelchair cushions for comfort, pressure relief and positioning.

### matrx<sup>LIBRA</sup>

**Award-winning**, offering superior balance and stability in the wheelchair together with exceptional pressure relief.

### VICAIR<sup>ACTIVE 02</sup>

**Super lightweight** and breathable offering advanced pressure relief and easy transfers.

## Recommended accessories

**Pelvic positioning belt not to be mistaken for a seat belt!** Core stability is fundamental to optimising user function and mobility. Using a pelvic positioning belt secures the pelvis for more stability, enhancing upper body control. Our belts are cutting-edge and an evolution in hip belts.

### BP Bodypoint<sup>Evoflex</sup>

With unique stiffened straps that stay upright, preventing it getting trapped in the wheels and pivots out of the way for smooth transfers.

Fundamental for optimising body function and allowing users to feel "at one" with their chair. The Evoflex pelvic positioning belt is unlike any other, with unique stiffened straps that stay upright, preventing it getting trapped in the wheels. What's more, it conveniently pivots out of the way when not in use allowing for smooth transfers.

## My onesolution.

“What I think everyone needs to know is that you can have a beautiful wheelchair, but your back support and cushion are details that really matter. The combination of my Matrx MX2 back, Matrx cushion and Kuschall chair, all from Invacare, has allowed me to fulfil my potential. **This one solution has been life changing for me.**”
