Robooter E40 Powerchair

The Robooter E40 is a sleek, foldable powerchair that seamlessly combines performance, portability, and style. Designed for easy daily use with comfortable leg space and a small turning radius, it is powered by a robust 20AH li-ion battery, covering an impressive 14 miles on a charge. With smooth maneuverability on various floor surfaces, its lightweight design makes it ideal for transportation in cars and airplanes.

With remote control capability, you can also take command of your wheelchair from the palm of your hand!
