Manual clamps / automatic lift £ 500 upgrade

### 1a. Available width adjustment rods for above PAWS with 200 mm center piece

Picture	Description	Extra price excl. VAT	Optional
	<b>107 mm width adjustment rods</b> For wheelchairs with mounting point width: 315-415 mm Rods 107 mm: Left: EBC107L-BK /Right: EBC107R-BK ●	included	<input checked="" type="radio"/>
	<b>150 mm width adjustment rods</b> For wheelchairs with mounting point width: 400-480 mm Rods 150 mm: Left: EBC150L-BK /Right: EBC150R-BK ●	£ 0.00	<input type="radio"/>
	<b>190 mm width adjustment rods</b> For wheelchairs with mounting point width: 480-540 mm Rods 190 mm: Left: EBC190L-BK /Right: EBC190R-BK ●	£ 0.00	<input type="radio"/>
	<b>70 mm width adjustment rods (Special side bracket/clamp holder)</b> For wheelchairs with mounting point width: 290-315 mm Rods 70 mm: EBC070-BK (same item for both sides, x2) ●	£ 0.00	<input type="radio"/>

**Note:** The width must be measured from the centre to the centre of the front tubes as illustrated in the picture above. It should also be mounted and measured as high up on the front frame as possible and in the middle of a straight piece of at least 5-6 cm, where the clamps should be placed. Usually the measurement do not have to be 100% accurate, it is good enough with a +/- tolerance of 5-10 mm.
